ARCHITECTS + INTERIORS + PLANNERS

AR STUDIO represents architects whose "designs for the future" are inspired by the brilliance of the vernacular timeless architecture of the past. Having started with small-scale interior nevertheless bore the signature of AR Studio, we have moved on to scales, including landscape and urban design.

EXTERIORS AND FACADES

AR Studios, specialises in creating unique, ubiquitous facades and exteriors for all our projects to ensure a inimitable product. Traditionally, the facades formed the main structure of the building, so there were few openings. Since their development, a larger surface area or opening can be achieved, so that the house is properly illuminated. With the introduction of steel and reinforced concrete in the construction method, the facades were freed from their load-bearing function and are now used as a non-load-bearing structure.

PROPOSED COMMERCIAL COMPLEX, GHAZIABAD

We provide designs which imbibe YOUR identity. Luxury can have many connotations. We equate luxury in our architecture to the quality of space and light, the tactile nature of materials and the attention to detail or the craftsmanship afforded to both the design process and the build process.

OUR SERVICES

AR STUDIO is a collaboration of two opposing perspectives on architecture and offers designs that reflect your identity. Luxury can have many meanings. In our architecture, we equate luxury with the quality of space and light, the feel of materials and attention to detail, or the craftsmanship that goes into both the design and construction process.

Luxury is when it appears flawless, when you achieve the right balance between all the elements. Understated theatricality - that's what our luxury is all about. A beautiful fusion of materials that make the Space decorative.

We create inspirational architecture, landscapes, Interiors townscapes and places that simplify project complexity and provide our clients with responsive, evidenced-based design solutions.

THE PROCESS

INTERIORS - RESIDENTIAL

We at AR Studios believe that interior design is more than great functionality and beautiful esthetics. Your home should be something you and your family are proud of and enjoy spending time in. Our efficient, custom interior designs take into account your needs in every corner of your home so that your space meets all of your requirements. Our dedicated interior designers will work tirelessly with you to match your style with their expertise to create the perfect interior design plan. We offer interior design ideas for complete residential and commercial spaces. Among other things, we specialize in complete interior designs and space-saving furniture. In addition, we guarantee a beautiful interior design according to your wishes.

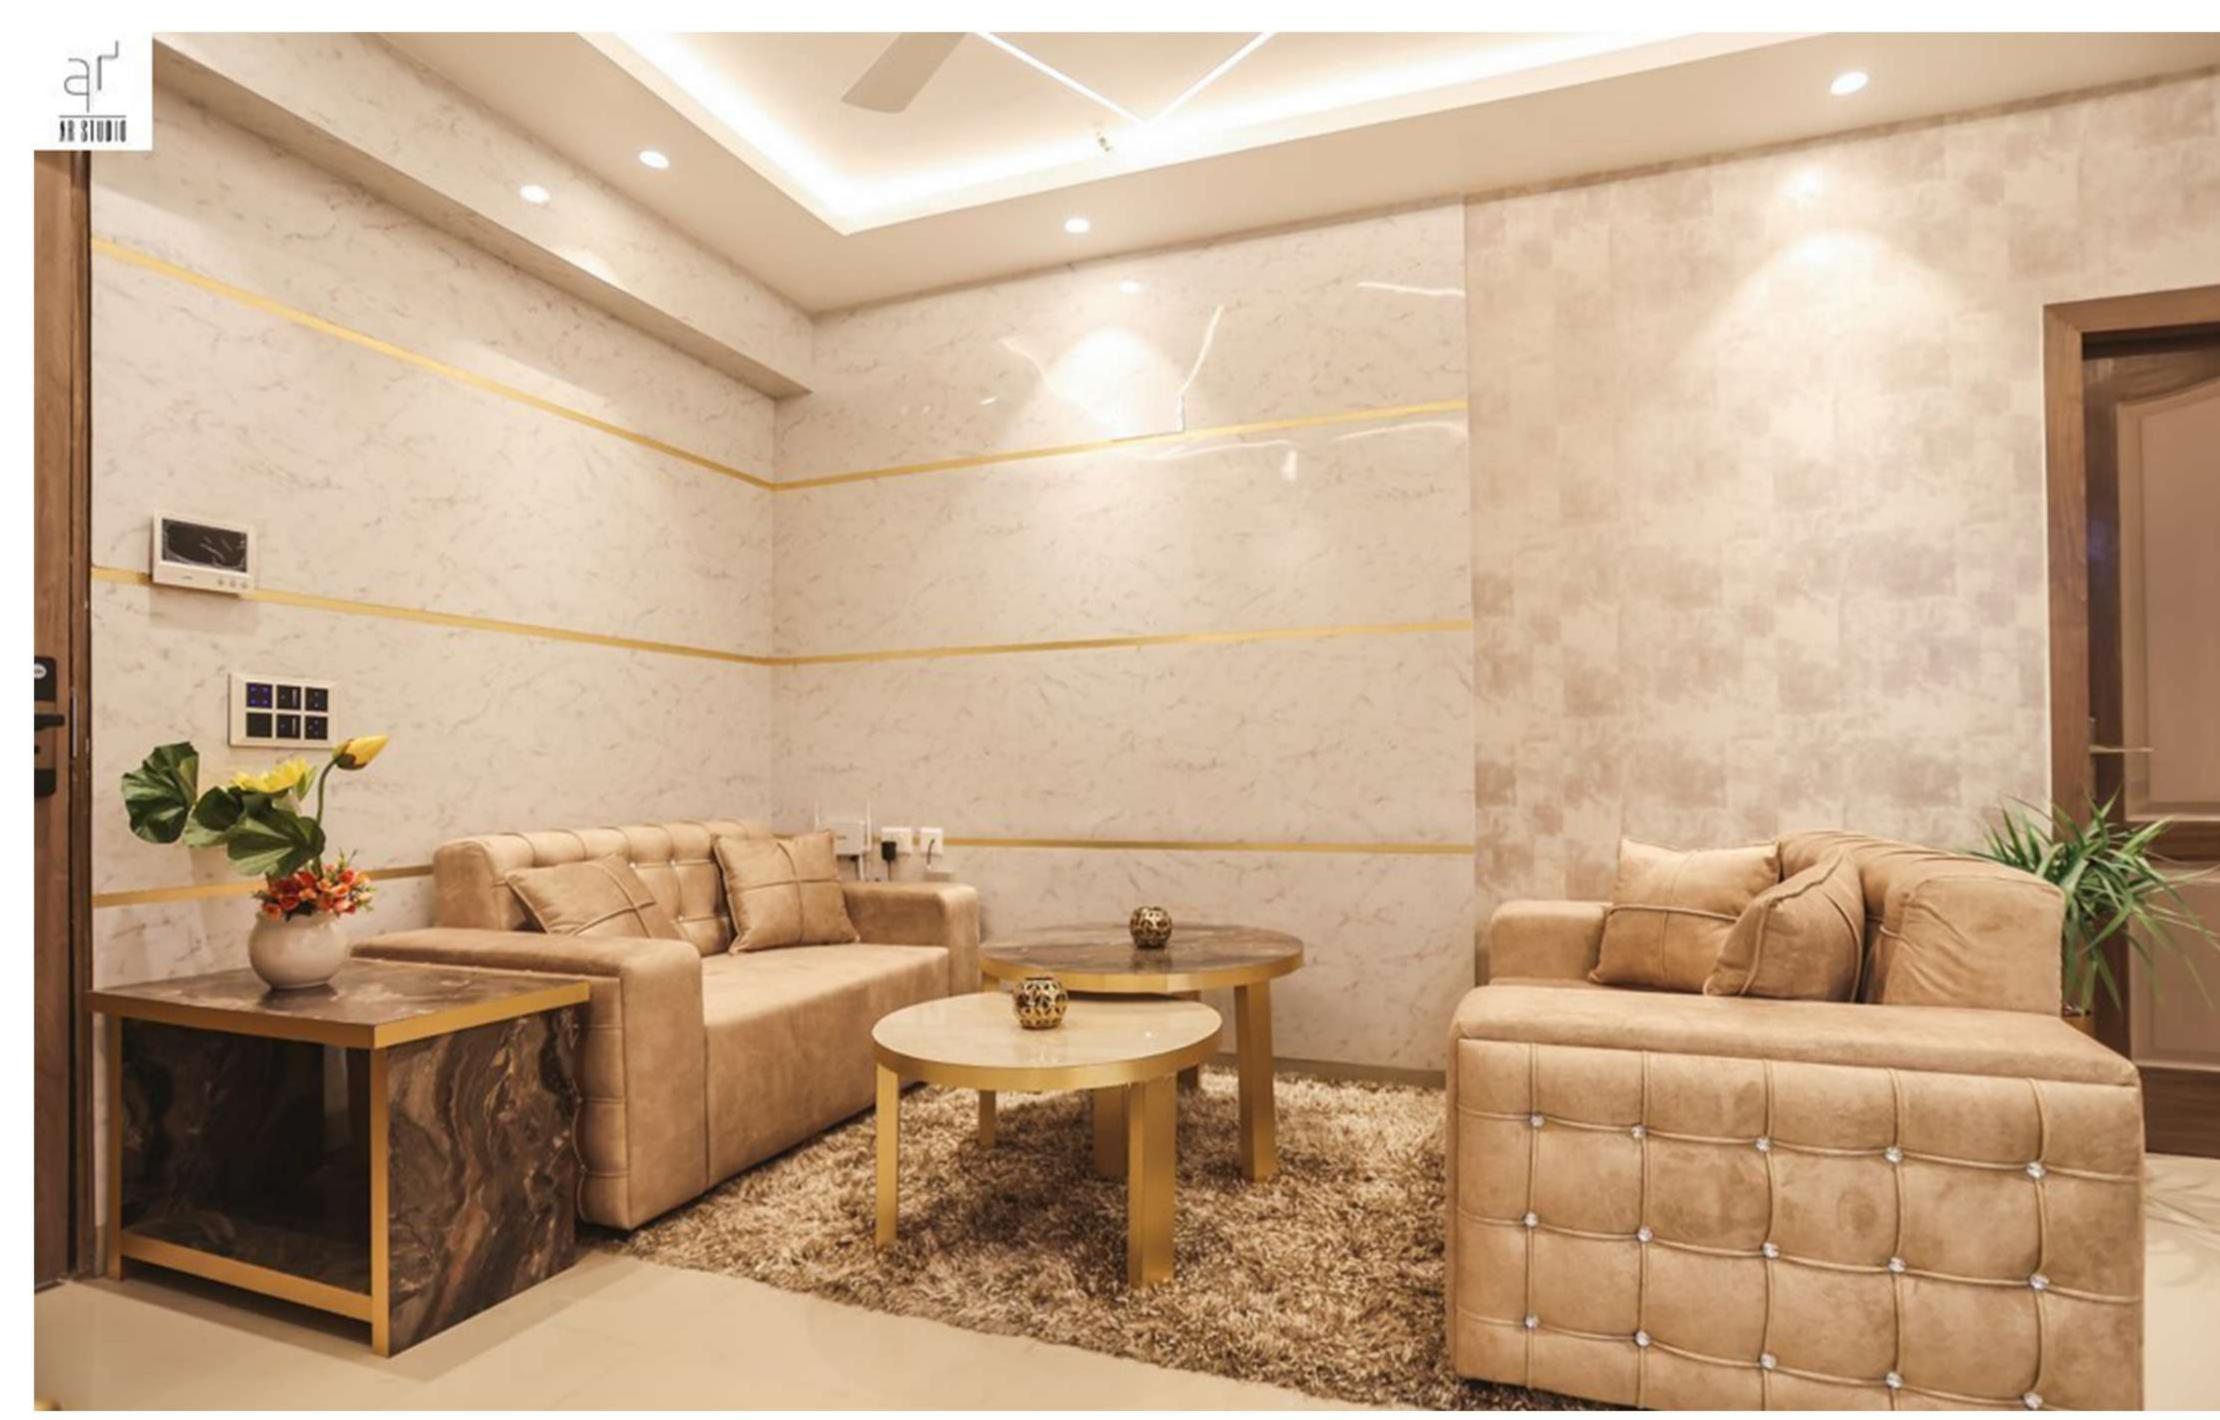

SAMPLE FLATS, MSS GROUP PVT. LTD. GHAZIABAD

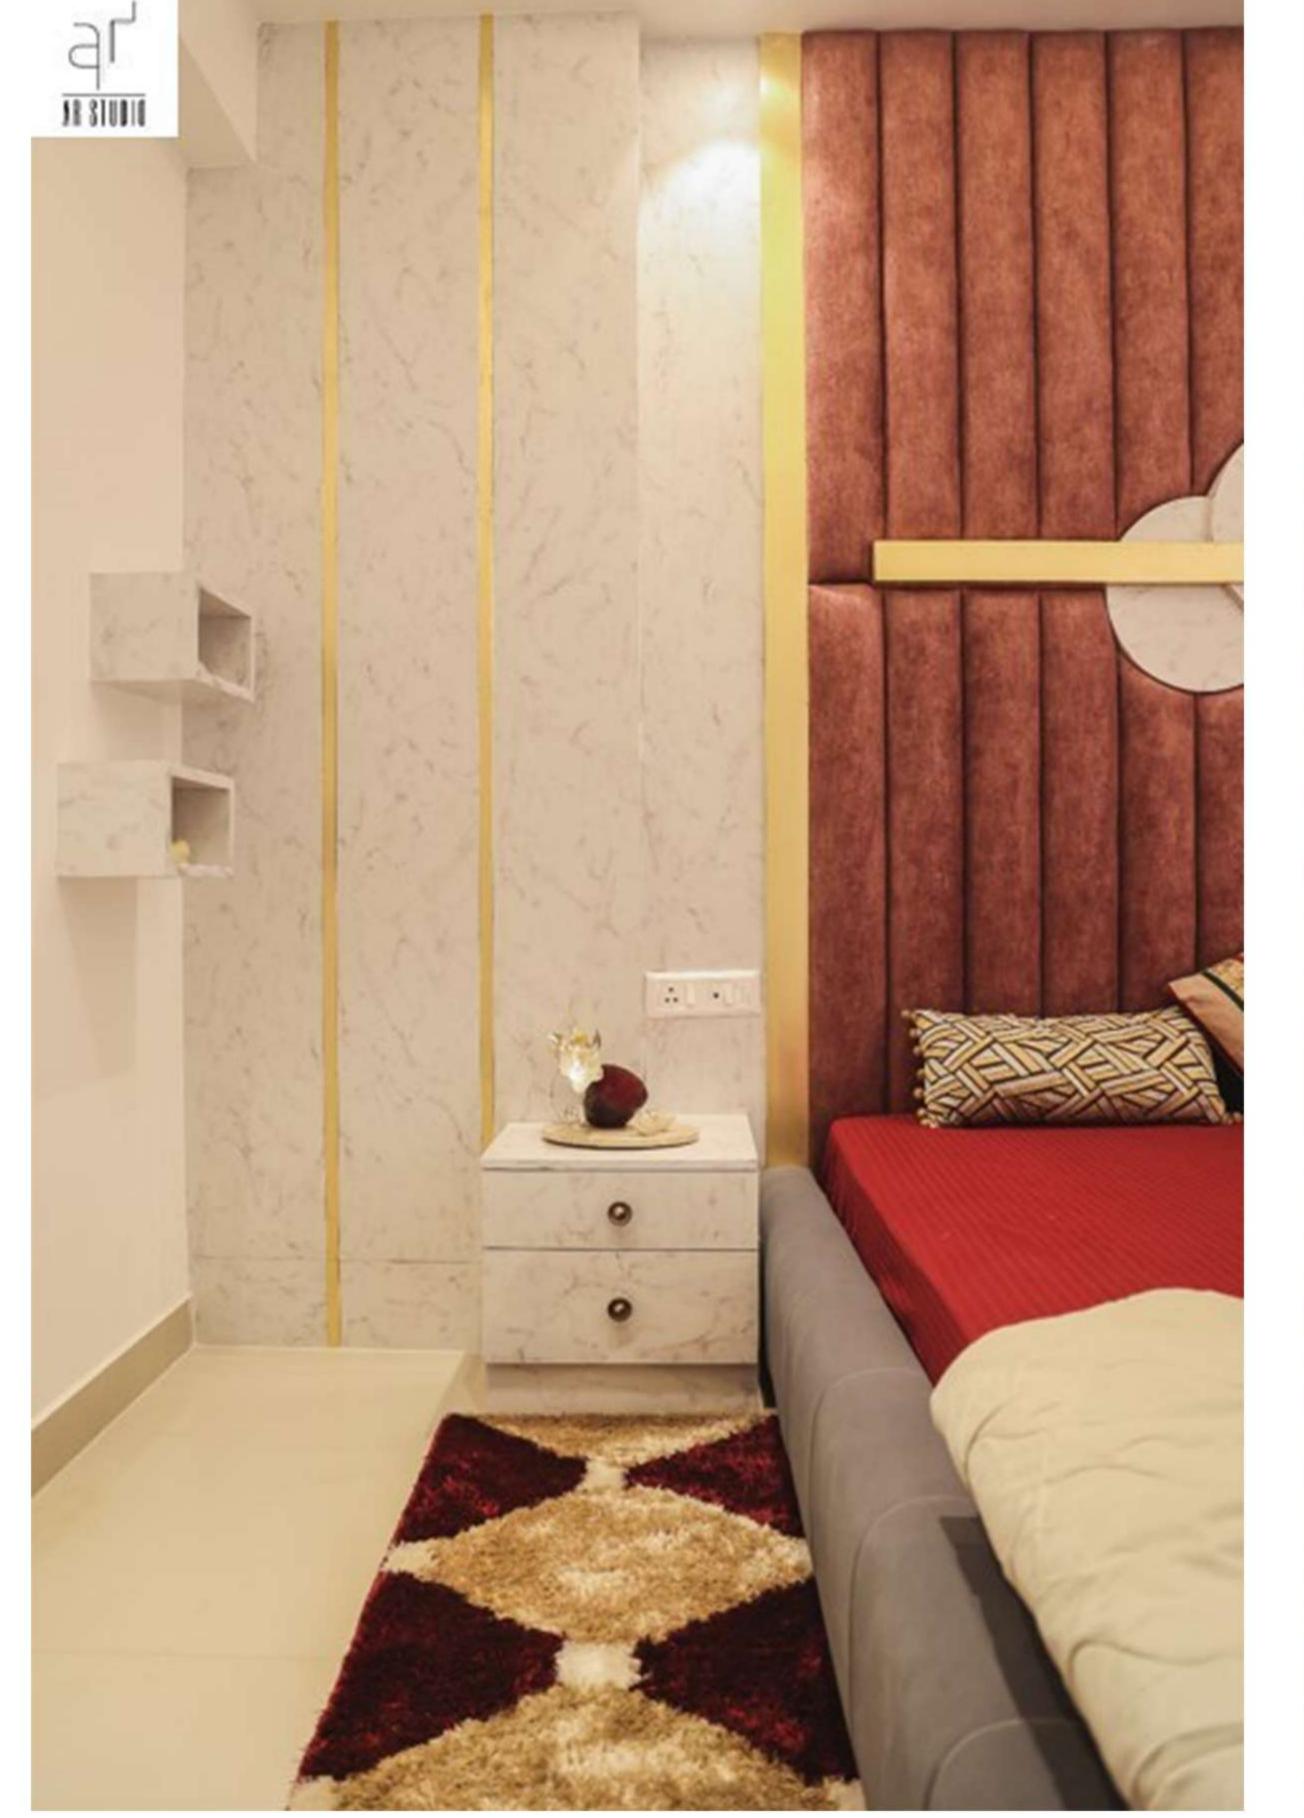

This House brings forth modern luxurious design in a pocket friendly price. Displaying an array of different geometric shapes juxtaposed with each other to bring in the perfect balance. Brass to laminate, every material is blended together in such a way that each and every detail shines out.

OFFICE SPACES, GHAZIABAD

AR Studios strives to ensure clear-cut, mosaic and stupendous design to our clients where they can materialise their dreams into reality. Moving into a new home can be one of life's greatest joys, but it can also be a time of uncertainty, especially when it comes to furnishings.

How can you best furnish your space while expressing your personal style? Do it well and you'll have a comfortable, happy home. Do it poorly and you'll end up with a mélange of furniture, fabrics and colors that never come together to form an appealing whole. With a little planning and by following the same steps that professional interior designers use, you have a much better chance of success.

We at AR studios recognises the importance to match the size of the furniture to the size of the room. While, a deep sectional sofa can easily overwhelm a small space, and slim chairs can get lost in a sprawling loft. Before you start designing, measure the length and width of each room you want to furnish.
